Take a Look!

# The second quarter continues to show steady growth

Here's a list of the clients I've been working with throughout the second quarter of 2010:

- Advanced Creative Technologies (NEW)
- Apple Transportation
- Chautauqua Institute
- The Crayon Project
- Farash Foundation (NEW)
- Jewish Community Federation
- Laurie Mercer
- Sonnenberg Mansion & Gardens
- Spectracom Corporation

## Graphic Design

Here are a few of the projects I've worked on this quarter:

**The Legacy Newsletter** of the Jewish Community Federation and **The Crayon Project Coloring Book**, co-sponsored by The Health Foundation and Monroe County **Be a Healthy Hero 5-2-1-0** campaign.

## Symbolx Design... the logo people

Here are a couple of the logos I've designed on this quarter: The **first** logo design brands a service provided by a local transportation-on-demand company, Apple Transportation.

The **second** logo is for a local foundation established after the passing of a giant in the Rochester real estate market, Max Farash. These are the four designs presented.

## ArtPrints: Photographic Illustrations

I am constantly working on new images to add to my many galleries. Here are just a few.

High Falls, Rochester New York

Water Lily, George Eastman House, Rochester New York

Lion Head, Sonnenberg Gardens, Canandaigua New York

These and many more new images are available for sale at the Strohl Art Center Gift Shop in Chautauqua New York through the end of August. My images are always available for purchase on my website at [BryanHydeDesign.com](http://BryanHydeDesign.com).

## ArtCards: Note Cards

### Changes have been made in my Finger Lakes Note Card Collections for 2010.

I've added the following images to my Finger Lakes note card collections.

*Clockwise from the top left: Koi fish at Sonnenberg Mansion & Gardens, boathouses on the Canandaigua city pier in the dead of winter, vineyards along the east side of Seneca Lake, and The Rose Hill Mansion just east of Geneva NY.*

## ArtTile: Stone Coasters

### I'm proud to announce a new collaboration with East Rochester based Advanced Creative Technologies.

Along with my own line of ArtTiles, available on my website, Sonnenberg Gardens, Chautauqua Bookstore and Chautauqua's Strohl Art Center Gallery Shop; Advanced Creative Technologies will feature many of my images on their line of stone coasters. They plan to sell them through local Rochester gift shops. Here are just two of the images they will be featuring.
